Interim Segment Report
For the year ended / as at 30 June 2018

#### (a) Operating Segments

The Group has three primary operating segments: Agency, Retail and Water and Seed and Grain which are the Group's strategic divisions. Agency and Retail and Water operate within New Zealand. Seed and Grain primarily operates within New Zealand with additional operations in Australia and South America.

The three operating segments offer different products and services, and are managed separately because they require different skills, technology and marketing strategies. There is also a Group General Manager for each segment. Within each segment, further business unit analysis may be provided to management where there are significant differences in the nature of activities. The Chief Executive Officer or Chairman of the Board reviews internal management reports on each strategic business unit on at least a monthly basis.

- Agency. Includes rural Livestock trading activities, Export Livestock, Wool, Insurance, Real Estate and Finance Commission.
- Retail and Water. Includes the Rural Supplies and Fruitfed retail operations, PGG Wrightson Water, AgNZ (Consulting), Agritrade and ancillary sales support, supply chain and marketing functions.
- **Seed and Grain.** Includes Australasia Seed (New Zealand and Australian manufacturing and distribution of forage seed and turf), Grain (sale of cereal seed and grain trading), South America (various related activities in the developing seeds markets including the sale of pasture and crop seed and farm inputs, together with operations in the areas of livestock, real estate and irrigation), and other Seed and Grain (research and development, international, production and corporate seeds).
- Other. Other non-segmented amounts relate to certain Group Corporate activities including Finance, Treasury, HR and other support services including corporate property services and include adjustments for discontinued operations (PGW Rural Capital Limited) and consolidation/elimination adjustments.

Assets allocated to each business unit combine to form total assets for the Agency, Retail and Water and Seed and Grain business segments. Certain other assets are held at a Corporate level including those for the Corporate functions noted above.

#### "Other" cost allocation

The Group applies an allocation methodology which allocates certain corporate costs where they can be directly attributed to an operating segment or attributed based on the use of the following methods:

- IT hardware, support, licence and other costs attributed based on a per user basis.
- Property costs allocated, where not directly attributable, on a property space utilisation basis.
- Business operations costs (Accounts Payable, Accounts Receivable, Credit Services, Call Centre) allocated based on FTE usage by each operating segment, transactional volumes or for Credit allocated based on the operating segment to which overdue accounts relate to.

The Group Finance, Risk and Assurance, Treasury, HR, Credit and the Executive Team functions continue to be reported outside of the operating segments.

Other costs including non-operating items, fair value adjustments, net interest and finance costs, income tax expense as well as the reporting of discontinued operations are not fully allocated by the Group. Accordingly, these items have not been fully allocated across the operating segments.

#### (b) Geographical Segment Information

The Group operates predominantly in New Zealand with some operations in Australia and South America.

The Australian and South American business units facilitate the export sales and services of New Zealand operations in addition to their own seed trading operations. Inter-segment pricing is determined on an arm's length basis.

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of operations and segment assets are based on the geographical location of the assets.

### **Segment Report**

### For the year ended / as at 30 June 2018

For the year ended 30 June 2018

#### 1 Event Subsequent to Balance Date

#### Agreement for sale of PGG Wrightson Seeds Holdings Limited

The Group announced in October 2017 that it had appointed Credit Suisse (Australia) Ltd and First NZ Capital Ltd as financial advisors to assist with a strategic review of PGW's business, its growth opportunities, capital and balance sheet requirements, and potentially shareholding structure.

Further to this review, on 6 August 2018 the Group announced that it had signed a sale and purchase agreement for the sale of its subsidiary PGG Wrightson Seeds Holdings Limited (PGW Seeds). The agreement represents the sale of the Group's Seed and Grain operating segment. The sale price is approximately \$421 million subject to various adjustments until settlement. The sale is conditional on various approvals including:

- PGW shareholder approval of a major transaction at a shareholders meeting.
- New Zealand Overseas Investment Act approval.
- New Zealand Commerce Commission clearance, Australian Competition and Consumer Commission approval and receipt of applicable regulatory approvals in South America.
- Change of control consents from several of PGW Seeds' joint venture partners.
- PGW banking syndicate consent.

Based on the initial sale price an estimated capital gain is expected to be recognised by the Group of approximately \$136 million. This estimated capital gain is subject to any further adjustments to the sale price until settlement, less transaction/disposal costs, and is subject to any reversal of the Foreign Currency Translation Reserve.

As the transaction was not agreed until post balance date and is still subject to the required approvals noted above the Group has not recognised the subsidiary or the Seed and Grain segment as "Assets Held For Sale" or a "Discontinued Operation" as at 30 June 2018.

#### Dividend

On 13 August 2018 the Directors of PGG Wrightson Limited resolved to pay a final dividend of 1.25 cents per share on 3 October 2018 to shareholders on the Company's share register as at 5.00pm on 4 September 2018. This dividend will be fully imputed.

2 Operating Revenue Continuing operations

	2018	2017
	\$000	\$000
Sales	1,048,007	994,024
Commissions	110,852	108,205
Construction contract revenue	29,627	27,627
Interest revenue on Go livestock product receivables	3,397	1,674
Debtor interest charges	1,579	1,433
Total operating revenue	1,193,462	1,132,963

#### Income Recognition Accounting Policies

#### Recognition of Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

#### Sales Revenue

Sales revenue comprises the sale value of transactions where the Group acts as a principal.

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

#### Commission Revenue

Commission revenue comprises commission for transactions where the Group acts as an agent.

For agency commissions the Group does not take inventory risk or title for inventories, or for the Group's Livestock and Real Estate businesses biological assets and properties respectively. The Group also generates commissions from the successful referral of clients to unrelated lending and insurance partners.

#### Interest and Similar Income and Expense

For all financial instruments measured at amortised cost, interest income or expense is recorded at the effective interest rate, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the original effective interest rate applied to the new carrying amount.

The Group recognises interest revenue, management fees, and establishment fees on an accruals basis when the services are rendered using the effective interest rate method.

#### Fee Income from Providing Transaction Services

Fees arising from negotiating or participating in the negotiation of a transaction for a third party are recognised on completion of the underlying transactions. Fees or components of the fees that are linked to certain performance are recognised after fulfilling the corresponding criteria.

#### Cost of Sales

Cost of Sales includes the following items by nature:	Note	2018 \$000	2017 \$000
Depreciation and amortisation		1,068	1,068
Employee benefits including commissions		33,620	37,097

#### Impairment of Agimol Corporation S.A.

The Group has conducted an impairment assessment based on forecasted future cash flows of Agimol Corporation S.A. which resulted in an impairment of \$7.80 million (USD 5.28 million) recorded through the profit and loss in fair value adjustments. This impairment assessment has been calibrated by and is consistent with, a valuation of Agimol Corporation S.A. included as part of the proposed sale of PGG Wrightson Seeds Holdings Limited (see Note 1). Following the impairment, goodwill of \$5.44 million is included in the carrying value of Agimol Corporation S.A. (30 June 2017: goodwill of \$13.24 million included in the carrying value of Agimol Corporation S.A.). The carrying value of the Group's investment in Agimol Corporation S.A. as at 30 June 2018 was \$11.83 million (USD 7.59 million).

#### Agimol Corporation S.A. earn-out provision

The initial investment recorded for this equity accounted investee company in 2016 included a provision for expected future earn-out payments of \$7.03 million (USD 4.51 million). This provision was previously included within accruals and other liabilities (see Note 20). Based on the above future cash flow forecasts, we have re-assessed the provision which has resulted in a reduction of the provision. The reduction of \$5.13 million (USD 3.66 million) has been recorded through the profit and loss in fair value adjustments. This provision release offsets against the impairment of Agimol Corporation S.A. noted above.

#### Agri Optics New Zealand Limited

During the period the Group reduced its investment in Agri Optics New Zealand Ltd from 51% to 33.33% following the inclusion of a third JV partner. Proceeds of \$0.11 million were received for the investment reduction.

#### Basis of Consolidation Accounting Policies

#### Associates and Jointly Controlled Entities

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Joint ventures are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Associates and jointly controlled entities are accounted for using the equity method. The consolidated financial statements include the Group's share of the income and expenses of equity accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence starts. Where the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. The carrying value of equity accounted investees is reviewed where any indicators of impairment are present.

8

#### Fair Value Change on Foreign Exchange Derivatives Accounting Policies

The Group undertakes transactions denominated in foreign currencies and exposure to movements in foreign currency arises from these activities. The Group uses forward, spot foreign exchange contracts and foreign exchange options to manage these exposures. These derivatives are recorded at their fair value with mark-to-market fair value movements flowing through fair value change on foreign exchange derivatives in the profit and loss. A portion of the underlying hedged future sale or purchase transactions have not yet been recognised by the Group. For this portion no corresponding offsetting net gain/(loss) on foreign denominated items has been recognised.

#### Unrecognised tax losses / Unrecognised temporary differences

At 30 June 2018 the Group has \$7.44 million of unrecognised deferred tax assets relating to unrecognised losses (2017: \$6.37 million) and \$2.64 million of unrecognised deferred tax assets relating to unrecognised temporary differences (2017: \$2.39 million). These unrecognised deferred tax assets relate to the Australian and South American subsidiaries of the Group.

### Income Tax Accounting Policies

Income tax expense comprises current and deferred taxation and is recognised in profit or loss except to the extent that it relates to items recognised directly in other comprehensive income or equity, in which case it is recognised directly in other comprehensive income or equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable with respect to previous periods.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- the initial recognition of goodwill
- differences relating to subsidiaries, associates and jointly controlled entities to the extent that they will probably not reverse in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantially enacted at the reporting date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be recognised.

Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### **Discontinued Operations**

The discontinued operations pertain to the Group's wholly owned subsidiary PGW Rural Capital Limited (PGWRC) which was established during 2012 to hold and recover certain excluded loans related to the sale of the Group's finance subsidiary PGG Wrightson Finance Limited. As at 30 June 2018 one loan remained in PGWRC. During the period an unconditional sale and purchase agreement was signed in respect of a property used as security for the loan with proceeds subsequently being received by the Group on 13 July 2018. The provision for finance doubtful debts was reassessed at 30 June 2018 in respect of the amount recoverable

#### 10 **Earnings Per Share and Net Tangible Assets**

#### Basic earnings per share

The calculation of basic earnings per share at 30 June 2018 was based on the profit/(loss) attributable to ordinary shareholders of \$18,887,000 (2017:\$46,311,000) by the weighted average number of shares, 754,848,774 (2017: 754,848,774) on issue. There are no dilutive shares or options (2017: Nil).

Number of shares	2018 000	2017 000

less deferred tax	(16,259)	(15,145)
	258,186	265,437
	2018	2017
	\$	\$
Net tangible assets per share	0.342	0.352
Earnings per share	0.025	0.061

#### Earnings per Share Accounting Policies

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to shareholders by the weighted average number of shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to shareholders and the number of shares outstanding to include the effects of all potential dilutive shares.

Not interest-hearing debt less Go livestock receivables	(129 666)	(05.970)

### Australia and New Zealand Facilities

The Company amended and extended its syndicated facility agreement on 15 December 2017. The facility agreement provides bank facilities of \$210.00 million. The agreement contains various financial covenants and restrictions that are standard for facilities of this nature, including maximum permissible ratios for debt leverage and operating leverage. The Company has granted a general security deed and mortgage over all its wholly-owned New Zealand and Australian assets to a security trust. These assets include the shares held in South American subsidiaries and equity accounted investees. ANZ Bank New Zealand Limited acts as security trustee for the banking syndicate (ANZ Bank New Zealand Limited, Bank of China (New Zealand) Limited, Bank of New Zealand, Bank of New Zealan Tokyo-Mitsubishi UFJ, Ltd and Westpac New Zealand Limited).

- The Company's bank syndicate facilities include:
   A term debt facility of \$150.00 million maturing on 31 July 2020.
  - A working capital facility of up to \$60.00 million maturing on 31 July 2020.

The syndicated facility agreement also allows the Group, subject to certain conditions, to enter into additional facilities outside of the Company syndicated facility. The additional facilities are guaranteed by the security trust. These facilities amounted to \$22.82 million as at 30 June 2018 including:

- Overdraft facilities of \$9.59 million.
- Guarantee and trade finance facilities of \$10.40 million.
- Finance lease facilities of \$2.83 million.

The syndicated facilities fund the general corporate activities of the Group, the seasonal fluctuations in working capital, and the Go range of livestock product receivables.

#### South American Facilities

Two of the Group's wholly-owned Uruguavan subsidiaries (Wrightson Pas S.A. and Agrosan S.A.) are jointly and severally financed by a club structure. The club facilities contain various financial covenants and restrictions that are standard for facilities of this nature. The club facilities are denominated in USD, secured by a mortgage over the logistics centre in Uruguay and provide:

- An amortising logistics centre facility of \$12.00 million (USD 8.13 million) maturing on 17 September 2022. A committed facility of \$17.73 million (USD 12.00 million) maturing on 29 June 2021.

Separate to the club facility, the Group's South American operations have various unsecured financing facilities that amounted to \$19.99 million (USD 13.53 million) as at 30 June 2018.

2018 2017

## Additional financial disclosures including notes to the accounts continued For the year ended 30 June 2018

	(4,611)	(1,652)
Net derivatives held for risk management	(3,764)	2,303

#### Derivatives held for risk management

The Group uses interest rate swaps and options to hedge its exposure to changes in the market rates of variable and fixed interest rates.

The Group also uses forward foreign exchange contracts, spot foreign exchange contracts and foreign exchange options to manage its exposure to foreign currency fluctuations.

#### **Derivative Financial Instruments Accounting Policies**

The Group uses derivative financial instruments to manage its exposure to interest rate and foreign currency risks arising from operational, financing and investment activities. In accordance with Treasury policy, the Group does not hold or issue derivative instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

Derivative financial instruments are recognised initially at fair value and transaction costs are expensed immediately. Subsequent to initial recognition, derivative financial instruments are stated at fair value. The gain or loss on re-measurement to fair value is recognised immediately in profit or loss.

#### 13 Go livestock product receivables

The Group holds receivables in respect of its Go range of livestock products. Launched in November 2015, the Go range allow farmers to defer payment for the purchase of livestock. The counterparty to the Go product is fully exposed to the risks and rewards of ownership. To mitigate credit risk the Group retains title to the livestock until sale. Fee income received in respect of the Go range of livestock receivables are recognised by the Group as interest income over the respective contract period. Interest income on the Go range of livestock receivables is included within operating revenue (see Note 2 Operating Revenue) of the Agency operating segment.

Provision

#### Trade and Other Receivables Accounting Policies

<u>Determination of Fair Values</u>

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

#### Impairment of Trade Receivables

Trade receivables are considered past due when they have been operated outside of the normal key trade terms. When forming a view management considers the counterparty's ability to pay, the level of security and the risk of loss.

Accounts receivables include accrued interest. Specific provisions are maintained to cover identified doubtful debts

15 Inventory	2018 \$000	2017 \$000
Merchandise/finished goods	266,471	258,536
Work in progress	842	761
Less provision for inventory write down	(4,775)	(5,697)
	262 538	253,600

During the year ended 30 June 2018, finished goods, work in progress, raw materials and consumables included in cost of sales in the Statement of Profit or Loss amounted to \$783.99 million (2017: \$755.14 million) (see Note 3).

During the year ended 30 June 2018 inventories written down to net realisable value amounted to \$2.34 million (2017: \$1.94 million). The write-downs are included in cost of sales in the Statement of Profit or Loss. Consideration is given to factors such as age, germination levels and quality when assessing the net realisable value of seeds inventory.

#### Inventories Accounting Policies

Finished Goods
Raw materials and finished goods are stated at the lower of cost or net realisable value. Cost is determined on a weighted average cost basis, and, in the case of manufactured goods, includes direct materials, labour and production overheads.

Wholesale Seeds

Wholesale seeds inventory is stated at the lower of cost or net realisable value and comprises costs of purchase and other direct costs incurred to bring the inventory to its present location and condition.

### Acquisition of Business

On 31 August 2017 the Group acquired the assets and business of the Superior Seed Company (Superior) at Deniliquin in the Riverina Region of New South Wales. The purchase price was \$1.06 million. The net assets acquired included plant and equipment, inventory and employee provisions. Superior is a seed production, cleaning and wholesale marketing business.

17 Other Investments	2018	2017

Sundry other investments	2,370	1,906
	2,520	1,906

#### Investment in BioPacificVentures

In 2005 the Group committed \$14.00 million to an international fund established for investment in food and agriculture life sciences. The investment in BioPacificVentures had a total lifespan of 12 years and matured in March 2017. The investors have agreed to continue with the fund manager in facilitating the wind down of the remaining investments held.

At 30 June 2018 \$13.95 million has been drawn on the committed level of investment (30 June 2017: \$13.95 million).

#### Advances to equity accounted investees

The non current advance is a loan to the jointly controlled entity Agri Optics New Zealand Limited. No interest is payable on the balance and no provision for doubtful debts was recorded against the loan as at 30 June 2018.

During the period, the advance previously provided to the South American investee entity Fertimas S. A., was repaid and replaced with external bank funding. The Group supports this external bank funding by way of guarantee. See Note 26.

#### Sundry other investments including saleyards

Sundry other investments including saleyards, which do not have a market price in an active market and whose fair value can not be reliably determined, are carried at cost.

#### Other Investments Accounting Policies

Determination of Fair Values
The fair value of financial assets at fair value through profit or loss and available-for-sale financial assets is determined by reference to the market price, unless other objective reliable evidence suggests a different value. Other investments where no active market exists are held at historical cost.

#### Intangible Assets continued

#### Intangible Assets Accounting Policies

Software
Software is a finite life intangible and is recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight line basis over an estimated useful life between 1 and 10 years. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period.

#### Rights

Manufacturing and production rights are finite life intangibles and are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight line basis over an estimated useful life between 2 and 10 years. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period.

#### Determination of Fair Values

The fair value of intangible assets acquired in a business combination is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

#### <u>Impairment</u>

The carrying amounts of the Group's intangible assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the recoverable amount of the asset is estimated. For intangible assets that have indefinite lives, the recoverable amount is estimated at each reporting date. An impairment loss is recognised in the profit or loss if the carrying amount of an asset exceeds the recoverable amount.

	,	*	*	,	*

<sup>\*</sup>Capital works projects are recorded net of transfers to other asset classes.

Capital gains on the sale of property, plant and equipment of \$1.69 million were recognised in non-operating items in the current period (2017: \$8.74 million).

#### Property, Plant & Equipment Accounting Policies

Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the cost of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of day-to-day servicing of property, plant and equipment is recognised in profit or loss as incurred.

Borrowing Costs
Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset. All other borrowing costs are expensed as they are incurred.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each item of property, buildings, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives. Land is not depreciated. The estimated useful lives for the current and comparative periods are between 2 and 40 years for plant and equipment and 50 years for buildings. Depreciation methods, useful lives and residual values are reassessed at reporting date.

#### Determination of Fair Values

The fair value of property, plant and equipment recognised as a result of a business combination is based on market values. The market value of property is the estimated amount for which the property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The market value of items of plant, equipment, fixtures and fittings is based on the quoted market prices for similar items.

#### Impairment

The carrying amounts of the Group's property, plant & equipment assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the recoverable amount of the asset is estimated. An impairment loss is recognised in the profit or loss if the carrying amount of an asset exceeds the recoverable amount.

#### Holidays Act 2003 - Remediation Costs

During the period the Group recognised an \$8.06 million provision for remediation costs of historical liabilities under the Holidays Act 2003. The Group has engaged the services of an external advisor and a law firm to assist in determining the level of provision. Work on determining the final liability is not yet complete. The provision is included within Employee entitlements above and represents Management's best estimate of the remediation costs.

21 Defined Benefit Asset / Liability	\$000	\$000
Present value of funded obligations	(66,814)	(71,106)
Fair value of plan assets	59,092	58,835
Net defined benefit asset / (liability)	(7,722)	(12,271)

ESCT on committed contributions - long-term	(1,947)	(2,614)
Total defined benefit asset / (liability)	(10,574)	(15,827)

The Group makes contributions to the PGG Wrightson Employee Benefits Plan, a defined benefit plan that provides a range of superannuation and insurance benefits for employees and former employees. The defined benefit plan is not open to new members. The plan's retired employees are entitled to receive an annual pension payment payable on their life and in some cases on the life of

#### Group / Company

Plan assets consist of:	2018	2017
Equities	59%	64%
Fixed interest	31%	28%
Cash	10%	8%
	100%	100%

Plan assets included exposure to the Company's ordinary shares of Nil (2017: Nil).

#### **Actuarial Assumptions:**

Principal actuarial assumptions at the reporting date (expressed as weighted averages):	2018	2017
Discount rate used (10 year New Zealand Government Bond rate)	2.85%	2.97%
Inflation	2.00%	2.00%
Future salary increases	3.00%	3.00%
Future pension increases	2.00%	2.00%

Assumptions regarding future mortality are based on published statistics and mortality tables. The current longevities underlying the values of the defined benefit obligation at the reporting date were as follows:

Longevity at age 65 for current pensioners	2018	2017
Males	21	21
Females	24	24
Longevity at age 65 for current members aged 45		
Males	24	24
Females	28	28

As at 30 June 2018 the weighted average duration of the defined benefit obligation was 8.7 years for the PGG Wrightson Employment Benefits Plan (2017: 8.5 years).

#### Sancitivity analysis

Sensitivity analysis					
The sensitivity of the defined benefit obligation (DBO) to changes in the weighted principal assumption is:			2018		2017
Change in assumption		Impact on DBO with increase in assumption \$000	with decrease in	Impact on DBO with increase in assumption \$000	with decrease
Discount rate (0.50% movement)		1,403	(1,537)	1,635	(1,778)
Salary growth rate (0.50% movement)		(200)	200	(284)	284
Pension growth rate (0.25% movement)		(601)	601	(711)	640
Life expectancy (1 year movement)		(1,470)	1,470	(1,493)	1,493
Historical information	2018 \$000	2017 \$000	2016 \$000	2015 \$000	2014 \$000
Present value of the defined benefit obligation	(66,814)	(71,106)	(73,417)	(72,153)	(68,330)
Fair value of plan assets	59,092	58,835	52,702	57,498	54,802
(Deficit) / surplus in the plan	(7,722)	(12,271)	(20,715)	(14,655)	(13,528)

The Group expects to pay \$2.94 million in contributions to defined benefit plans in 2019 (2018: \$3.02 million). Member contributions are expected to be \$0.86 million (2018: \$0.92 million).

ESCT provision	17	(772)
Cumulative gains/(losses) at 30 June	(33,090)	(34,645)

#### Employee Benefits Accounting Policies

The Group's net obligation with respect to defined benefit pension plans is calculated by estimating the future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and any unrecognised past service costs and the fair value of any plan assets is deducted. The discount rate is the yield at the reporting date on bonds that have maturity dates approximating the terms of the Group's obligations. The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognised asset is limited to the lower of the net assets of the plan or the current value of the contributions holiday that is expected to be generated.

Actuarial gains and losses and the expected return on plan assets are recognised directly in other comprehensive income and the defined benefit plan reserve in equity.

Short-term employee benefit obligations are measured on an undiscounted basis and expensed as the related service is provided. A provision is recognised for the amount of outstanding short-term benefits at each reporting date.

Provisions made with respect to employee benefits which are not expected to be settled within twelve months are measured as the present value of the estimated future cash outflows to be made by the Group with respect to services provided by employees up to reporting date.

## Additional financial disclosures including notes to the accounts continued For the year ended 30 June 2018

#### **Financial Instruments** 22

The Group is committed to the management of risk to achieve sustainability of service, employment and profits, and therefore, takes on controlled amounts of risk when considered appropriate.

The primary risks are those of liquidity, market (foreign currency, price and interest rate), funding and credit risk.

The Board of Directors are responsible for the review and ratification of the Group's systems of risk management, internal compliance and control, code of conduct and legal compliance.

The Board maintains a formal set of delegated authorities (including policies for credit and treasury), that clearly define the responsibilities delegated to Management and those retained by the Board. The Board approves these delegated authorities and reviews them annually.

Liquidity risk is the risk that the Group will encounter difficulties in raising funds at short notice to meet commitments associated with financial instruments. The Group monitors its liquidity daily, weekly and monthly and maintains appropriate liquid assets and committed bank funding facilities to meet all obligations in a timely and cost efficient manner. Management of liquidity risk is designed to ensure that the Group has the ability to meet financial obligations as they fall due.

The objectives of the Group's funding and liquidity policy is to:

- Ensure all financial obligations are met when due;
- Provide adequate protection, even under crisis scenarios; and
- Achieve competitive funding within the limitations of liquidity requirements.

The Group manages this risk by forecasting daily cash requirements, forecasting future funding requirements and maintaining an adequate liquidity buffer.

#### Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### 22 Financial Instruments (continued)

#### Market Risk

Market risk is the potential for change in the value of balance sheet positions caused by a change in the value, volatility or relationship between market risks and prices. Market risk arises from the mismatch between assets and liabilities, both on and off balance sheet. Market risk includes price, foreign currency and interest rate risk which are explained as follows:

#### Foreign Currency Risk

The Group undertakes transactions denominated in foreign currencies and exposure to movements in foreign currency arises from these activities. It is the Group's policy to hedge foreign currency risks as they arise. In some circumstances foreign exchange options are used to hedge potential foreign exchange risk. The Group uses forward, spot foreign exchange contracts and foreign exchange options to manage these exposures.

The translation of independent foreign operations into the Group financial statements is not hedged, apart from the seasonal working capital exposure to PGG Wrightson Seeds (Australia) Pty Limited which is hedged with foreign exchange contracts.

#### Interest Rate Risk

Interest rate risk is the risk that the value of financial instruments and the interest margin will fluctuate as a result of changes in market interest rates. The risk is that financial assets may be repriced at a different time and / or by a different amount than financial liabilities.

This risk is managed by operating within approved policy limits using an interest rate duration approach.

Floating rate borrowings are used for general funding activities. Interest rate swaps, interest rate options and forward rate agreements are used to hedge the floating rate exposure as deemed appropriate. The Group had \$78.0 million of interest rate derivatives at balance date (2017: \$93.0 million).

#### **Funding Risk**

Funding risk is the risk of over-reliance on a funding source to the extent that a change in that funding source could increase overall funding costs or cause difficulty in raising funds. The Group has a policy of funding diversification. The funding policy augments the Group's liquidity policy with it's aim to ensure the Group has a stable diversified funding base without over-reliance on any one market sector.

#### Credit Risk

Credit risk is the potential for loss that could occur as a result of a counterparty failing to discharge its obligations. This may be due to drought, bio-security issues or volatility in commodity prices. Management formally reports on all aspects of key risks to the Audit Committee at least two times each year. In addition, the following management committees review and manage key risks:

- The Senior Management Team meets regularly to consider new and emerging risks, reviews actions required to manage and mitigate key risks, and monitors progress.
- The Group has a Credit Committee, comprising of management appointees, which meets regularly as required to review credit risk, new loans and provisioning.

#### Capital Management

The capital of the Group consists of share capital, reserves, and retained earnings.

The policy of the Group is to maintain a strong capital base so as to maintain investor, creditor and market confidence while providing the ability to develop future business initiatives. In addition, external funding arrangements currently limit the Group's ability to pay dividends due to debt ratio requirements. This policy is reviewed regularly by the Board and has not been changed during the period.

#### Sensitivity Analysis

The Treasury policy of the Group effectively insulates earnings from the effect of short-term fluctuations in either foreign exchange or interest rates. Over the longer term however, permanent changes in foreign exchange or interest rates will have an impact on profit.

The sensitivity of net profit after tax for the period to 30 June 2018, and shareholders equity at that date, to reasonably possible changes in conditions is as follows:

	Interest rates incre	ease by 1%	Interest rates decrease by 1%	
	2018	2017	2018	2017
	\$000	\$000	\$000	\$000
Impact on net profit after tax	(1,614)	(1,418)	1,610	1,421
Members' equity	(1,614)	(1,418)	1,610	1,421

The stress test uses the existing balance sheet interest rate mismatch against the cumulative mismatch between repricing assets and liabilities out from one to five years. Other market risks such as pricing and foreign exchange are not considered likely to lead to material change over the next reporting period. For this reason sensitivity analysis of these market risks is not included.

#### Quantitative disclosures

### (a) Liquidity Risk - Contractual Maturity Analysis

The following tables analyse the Group's financial assets and financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date (reported on an undiscounted basis). History demonstrates that such accounts provide a stable source of long term funding for the Group.

2018 Liabilities	Within 12 months	1 to 5 years	Beyond 5 years	Contractual cash flow	Balance Sheet
Debt	41,041	163,231	-	204,272	180,011
Derivative financial instruments	3,645	966	-	4,611	4,611
Trade and other payables	151,956	-	-	151,956	151,956
	196,642	164,197	-	360,839	336,578
2017 Liabilities					
Debt	33,375	123,195	3,487	160,057	137,644
Derivative financial instruments	991	661	-	1,652	1,652
Trade and other payables	137,670	-	-	137,670	137,670
	172,036	123,856	3,487	299,379	276,966

#### (b) Liquidity Risk - Expected Maturity Analysis

The expected cash flows of the Group's finance receivables equal their contractual cash flows.

## Additional financial disclosures including notes to the accounts continued For the year ended 30 June 2018

22 Financial Instruments (continued)
(c) Foreign Currency Exposure Risk
The Group's exposure to foreign currency risk can be summarised as:

2018	GBP NZ\$000	USD NZ\$000	AUD NZ\$000	Euro NZ\$000
Cash and cash equivalents	5	19	9	19
Trade and other receivables	6,830	50,406	10,702	55,627
Debt	-	(5,908)	-	-
Trade and other payables	(119)	(5,363)	(2,704)	(1,565)
Net balance sheet position	6,716	39,154	8,007	54,081
Forward exchange contracts				
Notional forward exchange cover	6,711	45,043	7,998	54,062
Net unhedged position	5	(5,889)	7,556	19
2017		(0,000)		10
Cash and cash equivalents	2	4,819	1,378	17
Cash and cash equivalents Trade and other receivables	7,683	39,114	23,040	44,837
Hade and uniter receivables Debt	7,003		23,040	44,037
	(4.44)	(41,871)	(0.000)	(7.005)
Trade and other payables	(141)	(9,582)	(2,823)	(7,285)
Net balance sheet position	7,544	(7,520)	21,595	37,569
Forward exchange contracts				
Notional forward exchange cover	7,542	29,562	20,243	37,556
Net unhedged position	2	(37,082)	1,352	13

The net balance sheet positions for the Group in AUD and USD include cash, trade and other receivables, and trade and other payables for the Australian and South American domiciled subsidiary companies and are therefore not hedged.

(d) Interest Rate Repricing Schedule
The following tables include the Group's liabilities at their carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

2018	Within 12 months \$000	1 to 2 years \$000	Over 2 years \$000	Non interest bearing \$000	Total \$000
Liabilities					
Debt	180,011	-	-	-	180,011

Trade and other payables	-	-	151,956	151,956	151,956
Debt	-	-	180,011	180,011	180,011
	-	4,611	331,967	336,578	336,578
2017					
Assets					
Cash and cash equivalents	-	-	9,403	9,403	9,403
Derivative financial instruments	-	3,955	-	3,955	3,955
Trade and other receivables	-	-	205,752	205,752	205,752
Other investments	30	-	5,317	5,347	5,347
Go livestock receivables	•	-	32,371	32,371	32,371
Finance receivables	30	3,955	252,843	256,828	256,828
Liabilities		3,933	232,643	230,020	250,028
Derivative financial instruments		1,652		1,652	1,652
Trade and other payables		1,052	137,670	137,670	137,670
Debt			137,644	137,644	137,670
		1,652	275,314	276,966	276,966
		,,,,,	-,-	-,	-,

The Group's banking facilities are based on floating interest rates. Therefore the fair value of the banking facilities equals the carrying value.

#### Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (ie. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

There have been no material movements between the fair value hierarchy during the year ended 30 June 2018.

2018	Note	Level 1 \$000	Level 2 \$000	Level 3 \$000	Total \$000

		•	1,652	•	1,652

#### Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### 22 Financial Instruments (continued)

#### (f) Credit Risk

The carrying amount of financial assets represents the Group's maximum credit exposure. The Group's maximum credit exposure to credit risk for receivables by geographic regions is as follows:

		2018	2017
Total tra	<u>de and Go livestock receivables</u>	\$000	\$000
New Ze	aland	179,598	158,936
Australi		10,848	13,314
South A	merica	80,410	65,873
		270.856	238,123

#### Concentrations of Credit Risk

Financial instruments which potentially subject the Group to concentrations of credit risk principally consist of bank balances, advances, trade debtors, and forward foreign exchange contracts. The Group places its cash and short term investments with three major trading banks. Concentrations of credit risk with respect to advances are limited due to the large number of customers included in the Group's farming customer base in New Zealand.

#### Financial Instruments Accounting Policies

#### (i) Non-derivative Financial Assets

Non-derivative financial assets comprise investments in equity and debt securities, finance receivables, trade and other receivables, cash and cash equivalents and intercompany advances. The Group early adopted NZ IFRS 9 (2009) Financial Instruments from 1 January 2012. NZ IFRS 9 (2009) requires that an entity classifies its financial assets at either amortised cost or fair value depending on the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The Group early adopted IFRS 9 (2013) Financial Instruments from 1 January 2015. IFRS 9 (2013) provides amended general hedge accounting requirements.

The Group initially recognises financial assets on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

Financial assets are initially measured at fair value. If the financial asset is not subsequently measured at fair value through profit and loss, the initial investment includes transaction costs that are directly attributable to the asset's acquisition or origination. The Group subsequently measures financial assets at either fair value or amortised cost.

#### Financial assets measured at amortised cost

A financial asset is subsequently measured at amortised cost using the effective interest method and net of any impairment loss, if

- the asset is held within a business model with an objective to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest.

#### Financial assets measured at fair value

Financial assets other than those classified as financial assets measured at amortised cost are subsequently measured at fair value with all changes recognised in profit or loss.

However, for investments in equity instruments that are not held for trading, the Group may elect at initial recognition to present gains and losses through other comprehensive income. For instruments measured at fair value through other comprehensive income gains and losses are never reclassified to profit and loss and no impairments are recognised in profit and loss. Dividends earned from such investments are recognised in profit and loss unless the dividends clearly represent a repayment of part of the cost of investment.

#### Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short term highly liquid investments with maturities of three months or less. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents.

#### Trade and Other Receivables

Trade and other receivables are stated at their amortised cost less impairment losses.

#### (ii) Non-derivative Financial Liabilities

#### Interest-bearing Borrowings

Interest-bearing borrowings are classified as other financial liabilities and are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest rate method.

#### Trade and Other Payables

Trade and other payables are stated at cost.

#### Determination of Fair Values

#### Determination of Fair Values for Derivatives

The fair value of forward exchange contracts is based on broker quotes, if available. If broker quotes are not available, then fair value is estimated by discounting the difference between the contractual forward price and the current forward price at the reporting date for the residual maturity of the contract using a risk-free interest rate based on government bonds.

The fair value of interest rate swaps is based on broker quotes. These quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract using market interest rates for a similar instrument at the reporting date.

#### Determination of Fair Values for Non-derivative Financial Instruments

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

#### 2018 23 **Operating Leases** \$000 \$000 Non-cancellable operating lease rentals are payable as follows: Within one year 26 869 25 376 Between one and five years 68 281 56 981 Beyond five years 42 976 33 332 138,126 115,689

The Group leases a fleet of vehicles for use by employees, agents and representatives. Leases are typically for a period of between four and six years.

The Group leases office and computer equipment. Leases are typically for a period of four years.

The Group also leases and subleases land and buildings from which it conducts operations. These leases range in length from one to fifteen years with various rights of renewal. Where surplus properties are unable to be exited, sublease revenue is obtained where possible on a short-term temporary basis. During the year ended 30 June 2018 sublease revenue totalling \$1.18 million (2017: \$1.20 million) was received.

Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### 24 Seasonality of Operations

The Group is subject to significant seasonal fluctuations. The Retail business is weighted towards the first half of the financial year as demand for New Zealand farming inputs are generally weighted towards the Spring season. Livestock and Seed and Grain activities are significantly weighted to the second half of the financial year. Seed and Grain revenues reflect the fact the Group operates in geographical zones that suit Autumn harvesting and sowing. New Zealand generally has Spring calving and lambing and so Livestock trading is weighted towards the second half of the financial year in order for farmers to maximize their incomes. Other business units have similar but less material cycles. The Group recognises that this seasonality is the nature of the industry and plans and manages its business accordingly.

25 Commitments	Note	2018 \$000	2017 \$000
There are commitments with respect to:			
Capital expenditure not provided for		2,463	1,432
Investment in BioPacificVentures	17	51	51
Contributions to Primary Growth Partnership		277	867
		2,791	2,350

#### Primary Growth Partnership - Seed and Nutritional Technology Development

The Group announced on 18 February 2013 that it had completed the contracting process for the Primary Growth Partnership (PGP) programme with the Ministry of Primary Industries. The PGP programme is a Seed and Nutritional Technology Development Programme that aims to deliver innovative forages for New Zealand farms. As a result of entering into the partnership the Group is committed to contributions to the partnership over the six year life of the programme which ends on 31 December 2018. The total commitment in respect of the programme is \$3.61 million, As at 30 June 2018 total contributions of \$3.33 million (2017: \$2.74 million) have been made to the programme.

#### Forward purchase commitments

The Group as part of its ordinary course of business enters into forward purchase agreements with seed and wool growers. These commitments extend for periods of up to 3 years. These commitments are at varying stage of execution, therefore there remains uncertainty associated with yield, quality and market price. The Group is unable to sufficiently quantify the value of these commitments.

#### 26 Contingent Liabilities

	2018	2017
There are contingent liabilities with respect to:	\$000	\$000
Guarantee	3,693	-
PGG Wrightson Loyalty Reward Programme	102	140
	3,795	140

#### Guarantees

The guarantee is a standby letter of credit supporting external bank funding of the jointly controlled entity Fertimas S.A. Funding was previously provided by the respective joint venture partners. See Note 17.

#### PGG Wrightson Loyalty Reward Programme

A provision is retained for the expected level of points redemption from the PGG Wrightson Loyalty Reward Programme. A contingent liability of \$0.10 million represents the balance of live points that do not form part of the provision (2017; \$0.14 million).

Losses are not expected to arise from these contingent liabilities.

### 27 Related Parties

#### Parent and ultimate controlling party

The immediate parent of the Group is Agria (Singapore) Pte Ltd and the ultimate controlling party of the Group is Agria Corporation.

#### Transactions with key management personnel

	2018	2017
Key management personnel compensation comprised:	\$000	\$000
Short-term employee benefits	6,079	7,924
Post-employment benefits	151	121
Termination benefits	-	-
	6,230	8,045

Directors fees incurred during the year are disclosed in Note 4 Other Operating Expenses.

#### Other Transactions with Key Management Personnel

Several Directors, Senior Executives or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of these entities. A number of these entities transacted with the Group during the reporting period. The terms and conditions of these transactions with Key Management Personnel and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-Key Management Personnel related entities on an arm's length basis.

The aggregate value of transactions and outstanding balances relating to Directors, Senior Executives and entities over which they have control or significant influence were as follows:

Key Management Personnel/Director	Transaction	Value 2018 \$000	Outstanding 2018 \$000	Value 2017 \$000	Outstanding 2017 \$000
John Nichol	Purchase of retail goods	2	-	4	-
Trevor Burt	Purchase of retail goods and livestock transactions	184	-	106	-
Mark Dewdney (resigned 31 October 2017)	Purchase of retail goods and livestock transactions	416	-	543	20
David Green	Purchase of retail goods and rental receipts	87	-	104	-
Stephen Guerin	Purchase of retail goods and livestock transactions	9	-	16	-
John McKenzie	Purchase of retail goods, sale of seed under production contracts, sale of				
	wool, water services and livestock transactions	3,345	(593)	5,351	(382)
Peter Newbold	Purchase of retail goods	35	3	25	-
Cedric Bayly (retired 31 October 2017)	Purchase of retail goods	1	-	9	-

Transaction

#### Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### 28 Reporting Entity

PGG Wrightson Limited (the "Company") is a company domiciled in New Zealand, registered under the Companies Act 1993 and listed on the New Zealand Stock Exchange. The Company is an FMC Entity in terms of the Financial Markets Conduct Act 2013.

Financial statements of PGG Wrightson Limited for the year ended 30 June 2018 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in associates and jointly controlled entities. Financial statements have been prepared in accordance with the requirements of the Financial Markets Conduct Act 2013 and the Financial Reporting Act 2013.

The Group is primarily involved in the provision of goods and services within the agricultural sector.

#### 29 Basis of Preparation

#### Statement of Compliance

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with the New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") and other applicable Financial Reporting Standards as applicable for profit oriented entities. The financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board, as applicable for profit oriented entities.

These statements were approved by the Board of Directors on 13 August 2018.

#### **Basis of Measurement**

The financial statements have been prepared on the historical cost basis except for the following:

- derivative financial instruments are measured at fair value
- financial instruments at fair value through profit or loss are measured at fair value
- investments are measured at fair value
- biological assets are measured at fair value less point-of-sale costs
- assets classified as held for sale are measured at the lower of their carrying amount and fair value less cost to sell.

#### **Functional and Presentation Currency**

These financial statements are presented in New Zealand dollars (\$), which is the Group's functional currency. All financial information presented in New Zealand dollars has been rounded to the nearest thousand.

#### Use of Estimates and Judgements

The preparation of the consolidated financial statements in conformity with NZ IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates and assumptions.

Estimates and assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the following notes:

Note	Judgement
5	Carrying value of equity accounted investees
5	Reassessment of earn-out provision
14	Carrying value of trade and other receivables
15	Valuation of seeds inventory
20	Assessment of Holidays Act 2003 remediation costs

Certain comparative amounts have been reclassified to conform with the current period's presentation.

Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### 30 Other Significant Accounting Policies

The accounting policies set out in these financial statements have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities.

#### (a) Basis of Consolidation

#### Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

#### Transactions Eliminated on Consolidation

Intra-group balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### (b) Foreign Currencies

#### Foreign Currency Transactions

Transactions in foreign currencies are translated to the respective functional currencies of the group entities at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that fair value was determined. Foreign currency differences arising on retranslation are recognised in profit or loss.

#### Foreign Operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to New Zealand dollars at the exchange rates at the reporting date. The income and expenses of foreign operations are translated to New Zealand dollars at exchange rates at the date of the transactions.

Foreign currency differences are recognised in other comprehensive income and the Foreign Currency Translation Reserve ("FCTR"). When a foreign operation is disposed of, in part or in full, the relevant amount in the FCTR is transferred to profit or loss.

#### (c) Impairment

The carrying value of the Group's assets are reviewed at each reporting date to determine whether there is any objective evidence of impairment. An impairment loss is recognised whenever the carrying amount exceeds its recoverable amount. Impairment losses directly reduce the carrying value of assets and are recognised in profit or loss unless the asset is carried at a revalued amount in accordance with another standard.

#### Impairment of Equity Instruments

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of assets is impaired. In the case of equity instruments that are not held for trading, the Group may elect to present gains and losses through other comprehensive income. If no election is made fair value gains and losses are recognised in profit or loss.

The recoverable amount of the Group's investments in held-to-maturity debt instruments and receivables carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with short duration are not discounted.

Impairment losses on an individual basis are determined by an evaluation of the exposures on an instrument by instrument basis. All individual instruments that are considered significant are subject to this approach.

All known losses are expensed in the period in which it becomes apparent that the receivables are not collectable.

#### Non-financial Assets

The carrying amounts of the Group's non-financial assets, other than biological assets, inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the recoverable amount of the asset is estimated.

An impairment loss is recognised if the carrying amount of an asset or the cash-generating unit to which it relates, exceeds the recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups. Impairment losses are recognised in profit or loss.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or unit.

In determining the fair value using value in use, regard is given to external market evidence.

Additional financial disclosures including notes to the accounts continued

For the year ended 30 June 2018

#### 30 Other Significant Accounting Policies (continued)

#### (d) Determination of Fair Values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the methods outlined in the respective notes for the assets and liabilities. Where applicable, further information about the assumptions made is disclosed in the notes specific to that asset or liability.

#### (e) Intangible Assets

Research and Development

The principal research and development activities are in the development of systems, processes and new seed cultivars.

Research expenditure on the development of new systems and processes is recognised in profit or loss as incurred. Development activities involve a plan or design for the production of new or substantially improved products and processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalised includes the cost of materials, direct labour and overhead costs that are directly attributable to preparing the asset for its intended use. Other development expenditure is recognised in profit or loss when incurred.

Capitalised development expenditure is measured at cost less accumulated amortisation and accumulated impairment losses.

Research and development expenditure on the development of new seed cultivars is recognised in profit or loss as incurred. Development costs of seed cultivars are substantially indistinguishable from the cultivar research costs.

#### (f) Statement of Cash Flows

The statement of cash flows has been prepared using the direct approach modified by the netting of certain items as disclosed below.

Deposits received less withdrawals are netted as the cash flows are received and disbursed on behalf of customers and reflect the activities of the customers rather than those of the Group.

#### (g) Disclosure of non-GAAP financial information

Non-GAAP reporting measures have been presented in the Statement of Profit or Loss or referenced to in the notes to the financial statements. The following non-GAAP measures are relevant to the understanding of the Group financial performance:

- EBITDA (a non-GAAP measure) represents earnings before net interest and finance costs, income tax, depreciation, amortisation and the results from discontinued operations.
- Operating EBITDA (a non-GAAP measure) represents earnings before net interest and finance costs, income tax, depreciation, amortisation, results from discontinued operations, fair value adjustments and non-operating items.

The PGW Board and management consider the Operating EBITDA measure to promote a more meaningful communication of financial information. This measure is also the required information for certain stakeholders and for internal management reporting and review.

#### (h) Standards and Interpretations That Have Been Issued or Amended But Are Not Yet Effective

A number of new standards and interpretations are not yet effective for the year ended 30 June 2018 and have not been applied in preparing these consolidated financial statements. These standards are:

- IFRS 9 (2014) Financial Instruments has been issued. The final component of IFRS 9 (2014) introduces a new expected credit loss model for calculating impairment. IFRS 9 (2014) is effective for annual periods beginning on or after 1 January 2018. The Group does not plan to adopt IFRS 9 (2014) early. Initial review has determined that this new standard will not have a significant financial impact on the Group's financial statements.
  - IFRS 15 Revenue from Contracts with Customers has been issued. This standard introduced a new revenue recognition model for contracts with customers. The standard is effective for annual periods beginning on or after 1 January 2018. Initial review has determined that this new standard will not have a significant financial impact on the Group's financial statements.
- IFRS 16 Leases has been issued. This standard eliminates the classification of leases as either operating leases or finance leases. The standard uses a single lessee model which requires a lessee to recognise on the Statement of Financial Position assets and liabilities for all leases with a term of more than 12 months. The standard is effective for annual periods beginning on or after 1 January 2019. The Group does not plan to adopt IFRS 16 early. Initial review has determined that this new standard will likely have a significant financial impact on both the balance sheet and profit and loss given the extent of operating leases the Group is exposed to.
- A variety of minor improvements to standards have been made in order to clarify various treatments of specific transactions. These are not expected to have an impact on the Group's financial results.

# PGG Wrightson Limited Statement of Changes in Equity For the year ended 30 June 2018

#### Capital and Reserves

On issue at 1 July

Share capital on issue at 30 June

No. of shares 2018 000	No. of shares 2017 000	2018	2017 \$000
754,849	754,849	606,324	606,324
754,849	754,849	606,324	606,324

All shares are ordinary fully paid shares with no par value, carry equal voting rights and share equally in any profit on the winding up of the Group.

#### Foreign currency translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations as well as from the translation of liabilities that hedge the Group's net investment in a foreign subsidiary.

#### Realised capital reserve

The realised capital reserve comprises the cumulative net capital gains that have been realised.

The revaluation reserve relates to historic revaluations of property, plant and equipment.

#### Hedging reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to hedged transactions that have not yet settled.

#### Defined benefit plan reserve

The defined benefit plan reserve contains actuarial gains and losses on plan assets and defined benefit obligations. During the year ended 30 June 2018 the amount of \$3.26 million was transferred from the defined benefit reserve to retained earnings (30 June 2017: \$2.35 million) . This amount represents the tax impact of lump sum cash contributions made.

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets and equity investments elected at fair value through other comprehensive income until the investments are derecognised or impaired.

#### Retained earnings

Retained earnings equals accumulated undistributed profit.

#### Dividends

The following dividends were paid by the Company for the year ended 30 June:

A fully imputed 2018 interim dividend of 1.75 cents per share was paid on 5 April 2018 and a fully imputed 2017 final dividend of 2.0 cents per share was paid on 4 October 2017 (2017: Fully imputed 2017 interim dividend of 1.75 cents per share was paid on 4 April 2017 and a fully imputed 2016 final dividend of 2.0 cents per share was paid on 4 October 2016).

#### Share Capital Accounting Policies

#### Ordinary Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

Repurchase of Share Capital
When share capital recognised as equity is repurchased, the amount of the consideration paid, including directly attributable costs, is recognised as a deduction from equity. Repurchased shares are cancelled. Treasury stock for which unrestricted ownership has not yet been transferred are not cancelled.

# Independent Auditor's Report

To the shareholders of PGG Wrightson Limited

#### Report on the consolidated financial statements

### **Opinion**

In our opinion, the accompanying consolidated financial statements of PGG Wrightson Limited (the company) and its subsidiaries (the Group) on pages 1 to 30:

- present fairly in all material respects the Group's financial position as at 30 June 2018 and its financial performance and cash flows for the year ended on that date; and
- ii. comply with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

We have audited the accompanying consolidated financial statements which comprise:

- the consolidated statement of financial position as at 30 June 2018;
- the consolidated profit and loss, statements of other comprehensive income, changes in equity and cash flows for the year then ended;
- the segment report as at and for the year ended 30 June 2018; and
- additional financial disclosures including notes to the financial statements.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Group in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the auditor's responsibilities for the audit of the consolidated financial statements section of our report.

Our firm has also provided other services to the Group in relation to regulatory audit and agreed upon procedures. Subject to certain restrictions, partners and employees of our firm may also deal with the Group on normal terms within the ordinary course of trading activities of the business of the Group. These matters have not impaired our independence as auditor of the Group. The firm has no other relationship with, or interest in, the Group.

### **Materiality**

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the consolidated financial statements as a whole. The materiality for the consolidated financial statements as a whole was set at \$2,400,000 determined with reference to a benchmark of adjusted Group net profit before tax. We chose the benchmark because, in our view, this is a key measure of the Group's performance.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the shareholders as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the consolidated financial statements as a whole and we do not express discrete opinions on separate elements of the consolidated financial statements

### The key audit matter

#### How the matter was addressed in our audit

### Climatic Environment - Impact on the carrying value of inventory (\$262.5 million - refer note 15)

The Group is exposed to risks associated with climatic events, particularly in New Zealand, Australia and South America.

Weather events have an impact on harvest yields, specifically within the Seed and Grain business, and also on autumn demand for replanting. This combined with the quality of Seed and Grain inventory, in particular germination levels of seeds, impacts on the carrying value of inventory at year end.

Weather events can also impact on the quantity and mix of products sold across other operating segments due to the variation in customer demands.

Our audit procedures included:

- Challenging the methodology applied by management to calculate the inventory provision. In addition, we checked a sample of inputs in the inventory provision calculation for consistency with the last purchase date, sales volume in the last 12 months, aging of inventory items and months of inventory cover.
- Comparing products sold with negative margin during the financial year to the level of product on hand at year end and assessing whether the inventory is held at the lower of cost and net realisable value.
- Assessing a sample of externally completed germination testing of seed inventory to identify any low quality inventory requiring additional provisioning.
- Assessing the level of inventory provisions at year end and found them to be comparable to actual losses recognised during the current and historical years.

Our procedures did not identify any variations that would materially impact the carrying value of inventory.

#### Economic Risk Factors - Impacts on the recoverability of trade receivables (\$267.6 million - refer note 14)

The Group is exposed to both domestic and international economies. Economic risk is considered a key audit matter given the impact this has on the ability of the Group to collect outstanding accounts receivable.

The credit quality of farmer customers is often dependent on domestic and international economic performance, including the impact of commodity prices, foreign exchange rates and the liquidity within the banking environment, specifically within Uruguay.

Refer Note 14 for further details on outstanding trade receivables and credit quality at year end and to Note 22 for details on how the Group manages credit risk. Our audit procedures included:

- Evaluating whether the aged accounts receivable listing (used as the initial basis by management to determine whether a provision is required) was complete and accurately reflected the aging of outstanding amounts. We agreed a sample of individual outstanding trade receivables to original sales documentation.
- Challenging the methodology applied by management to calculate the provision for doubtful debts by considering the policy applied and whether the underlying assumptions were appropriate.
- Assessing the level of provision for doubtful debts at year end by comparing to actual losses recognised during the current and historical years. We also considered whether the aging of historical balances had deteriorated.

Our audit procedures did not identify variations that would materiality impact on the carrying value of trade receivables.

#### The key audit matter

#### How the matter was addressed in our audit

## Investment Risk – Carrying value of the equity accounted investment in Agimol Corporation S.A. ('Agimol') (\$11.8 million - refer note 5)

The Group has a 50 percent investment in Agimol which is accounted for as an equity accounted investee.

Included within the original purchase price of this investment was an estimate for the amount payable under an earn out provision as detailed in Note 5.

During the year, the Group has made an additional investment in Agimol.

The operations of Agimol have been impacted by historical flooding events within Uruguay and the flow on effects through on-farm spending in subsequent seasons.

The Group has conducted an impairment assessment based on the forecast future performance of Agimol and recognised an impairment expense of \$7.8 million.

This is considered to be a key audit matter due to the judgement in forecasting future performance which is inherently uncertain. Our audit procedures included:

- Considering the terms of additional investments during the year, specifically if there continues to be joint control and it remains appropriate to continue equity accounting for the investment.
- Challenging the assumptions adopted in managements forecast future cashflow analysis, including forecast cashflow performance, long term growth rates and discount rates.
- Engaging our internal valuation specialists to assist in assessing key assumptions in management's discounted cashflow and challenging the assessed carrying value based on other references for valuation, including implied earnings multiples.
- Comparing the assessed carrying value based on future forecast performance to the value included within the agreed purchase price as part of the conditional sale of PGG Wrightson Seeds Holdings Limited, announced subsequent to year end (refer note 1 of the financial statements).
- Comparing the consistency of the assumptions made by management to assess the carrying value of the investment with those used to assess the carrying value of the earn out provision.

Our audit procedures concluded that the carrying value of the investment within Agimol Corporation is materially correct and is consistent with the value included within the conditional sale of PGG Wrightson Seeds Holdings Limited.

### Other information

The Directors, on behalf of the Group, are responsible for the other information included in the Group's Annual Report. Other information may include the Chairman and Chief Executive Officer's report, disclosures relating to corporate governance, statutory disclosures and shareholder information. Our opinion on the consolidated financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

The Annual Report is expected to be made available to us after the date of this Independent Auditor's Report. Our responsibility is to read the Annual Report when it becomes available and consider whether the other information it contains is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit, or otherwise appear misstated. If so, we are required to report such matters to the Directors.

### Use of this independent auditor's report

This independent auditor's report is made solely to the shareholders as a body. Our audit work has been undertaken so that we might state to the shareholders those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholders as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

### Responsibilities of the Directors for the consolidated financial statements

The Directors, on behalf of the company, are responsible for:

- the preparation and fair presentation of the consolidated financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards;
- implementing necessary internal control to enable the preparation of a consolidated set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

### × Auditor's responsibilities for the audit of the consolidated financial statements

Our objective is:

- to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of these consolidated financial statements is located at the External Reporting Board (XRB) website at:

http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-1/

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Peter Taylor
