### Commentary,

With a slightly softer market in Napier today we have seen the price indicator fall by 6 cents. We are not seeing many good styled wools entering the market and the high vegetable matter and high coloured wools are still the bulk of the offering which does not help get the average of the prices up. With the Rams out in most places doing their bit for the New Zealand economy, wool flows have slowed down in the North Island. We now take a three week break until the next North Island sale to accommodate the Easter holidays.

Kind regards,

The next North Island sale is: **28/04/2022**
