### Commentary,

With a combined North Island and South Island sale to end the 21-22 wool season it certainly made for a challenging morning. It could be quoted that the good second shear wools remained firm but sold to buyers favour, poor styled wools and oddments saw a very harsh price adjustment and any lambs wool offered did not meet for any real demand. With this being the end of the "wool season" on behalf of the PGGW wool team Thank You for your continued support and we will remain working hard to market your wool to its best advantage this coming season.

Kind regards,
