It was pleasing to be told by three exporters after the North Island wool sale this morning that the PGG Wrightson wool catalogue enjoyed the best part of the sale as prices increased during the morning. Fleece wool held strong in value, second shear had an increase from the fall last sale and lambs wool, although a little erratic in pricing, held strong with buyers pushing each other to obtain better coloured and very low vegetable matter lines. We are now back to fortnightly sales after the previous weekly rostered offerings.
