The tone remained firm with overall prices largely in line with those seen at the previous sale. While the market showed resilience, trends varied across categories.

Prices for bellies and pieces continued their upward trajectory, reflecting steady demand. In contrast, good-style wools across all lengths experienced a slight easing, suggesting a more selective buying approach for premium lines with a noticeable price differences emerging based on VM -vegetable matter, underlining the importance of wool preparation and presentation.

As we conclude the 2024/25 wool selling season, the PGW Wool team would like to extend our sincere thanks for your continued support. We look forward to working with you in the upcoming season and wish you all the best until then.
